# About One Piece A Day

## About Us

One Piece A Day is a global environmental initiative that promotes environmental awareness and sustainability by encouraging every person on the planet to refuse single use plastics, reduce waste, and pick up one piece of trash a day while logging their progress in an app.

## Our Mission

To keep our planet free from garbage forever.

To get every person globally involved in this great and important job of taking care of our planet.

It all starts with us doing our part to remove litter and refuse single-use plastic.
